

DIA Prem

Reliable, Scalable, Nationwide Access

Expand your footprint with a range of cost-effective, Internet access solutions.

Nationwide, High-speed Internet Access Solutions

Dedicated Internet Access (DIA Prem) is a diverse, comprehensive service solution for carriers, content and media providers, federal government agencies and Fortune 100 companies that offers full technology redundancy over a variety of mediums and provides Internet service to end-user locations.

Windstream Wholesale manages every aspect of the process to support **rapid provisioning and simplified, single-source order management and fulfillment** - all while our powerful iconnect customer portal enables you to quote complex jobs with ease.

Customers take advantage of our **16,000+ lit and over 400,000 prequalified fixed wireless buildings**, plus our carrier partnerships to cover more service areas.

If your business demands **resilient, high-speed Internet connections**, DIA satisfies with unmatched security, redundancy, and performance.
